

# Skumring

---

Affinity diagram og behov basert på dette

# Funn fra intervju i affinity diagram

# Behov

Behov for å vite  
når det er  
golden hour

Behov for å vite  
når det er  
soloppgang

Behov for å vite  
når det er  
solnedgang

Behov for  
forutsigbarhet

Behov for  
forståelig språk i  
appen (engelsk/  
norsk)

Behov for å vite  
når det er blue  
hour

Behov for å  
oppdage fine  
steder å ta bilde

Behov for å vite  
hva slags skyer  
det vil være

Behov for å vite  
værforhold på  
lokasjon

Behov for å vite  
lys og  
skyggeforhold  
på gitt lokasjon

Behov for  
forutsigbarhet

Behov for en  
oversikt med  
fine steder/  
lokasjoner å ta  
bilde

Behov for å se  
eksempelbilder  
fra en lokasjon

Behov for å lagre  
lokasjoner i  
"mine  
lokasjoner"/  
favorittlokasjon  
er

Behov for å å  
lagre en gitt  
posisjon som de  
kan komme  
tilbake til senere

Behov for å  
forstå hva  
værdaten betyr  
(trykk,  
luftfuktighet,  
skyer)

Behov for å vite  
å være i  
værforholdet  
som det skal tas  
bilde i

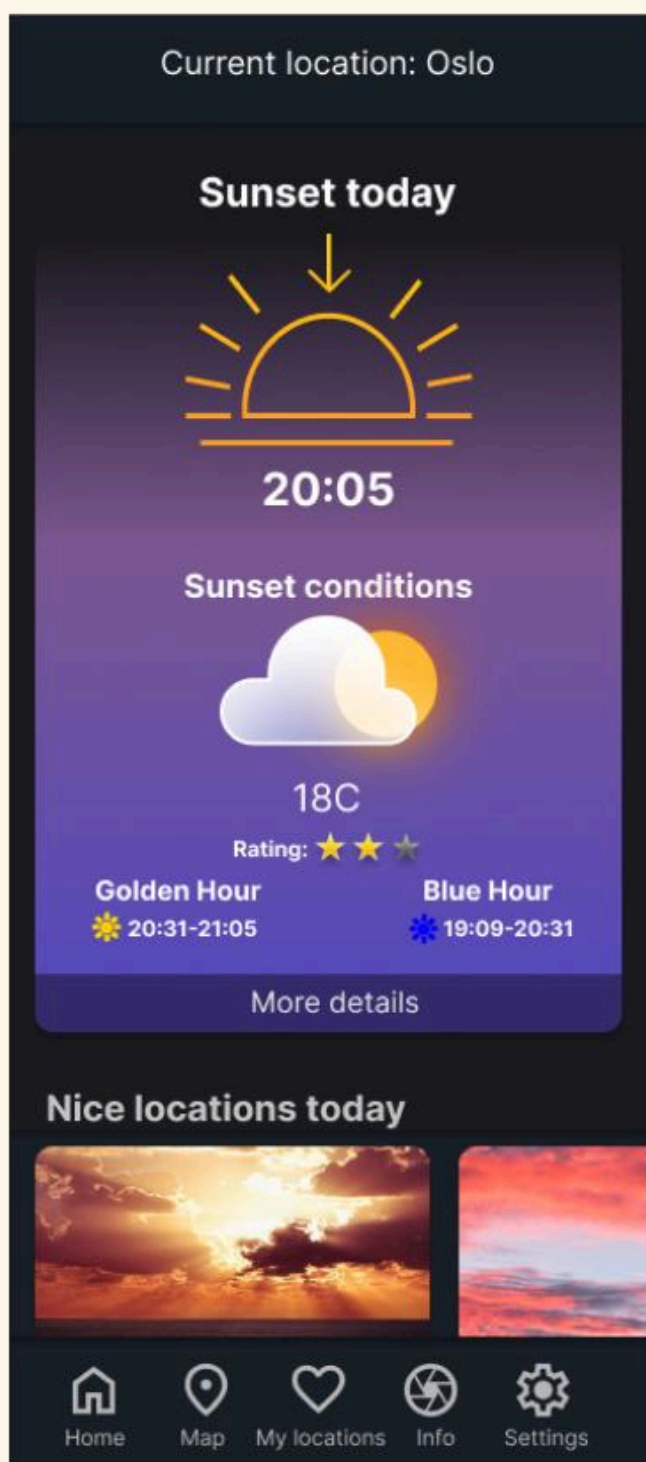

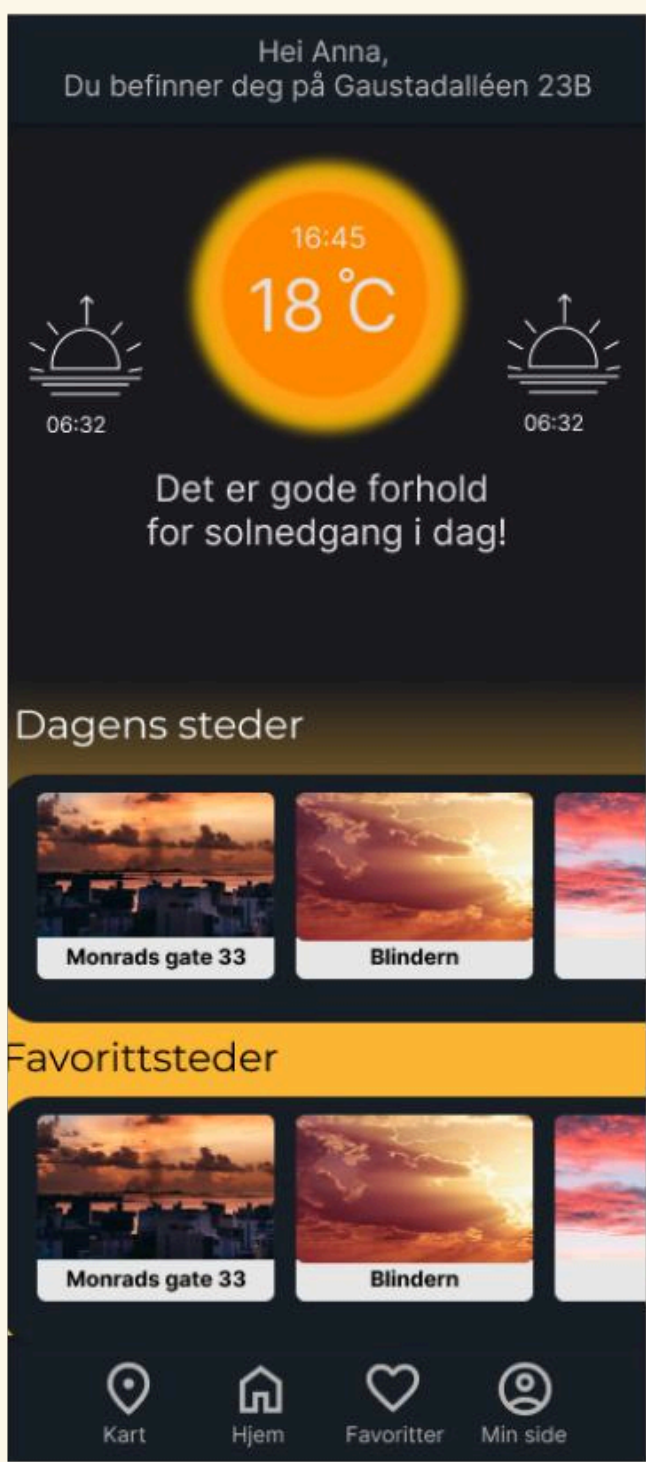

Design og iterasjoner på forskjellige skjermer

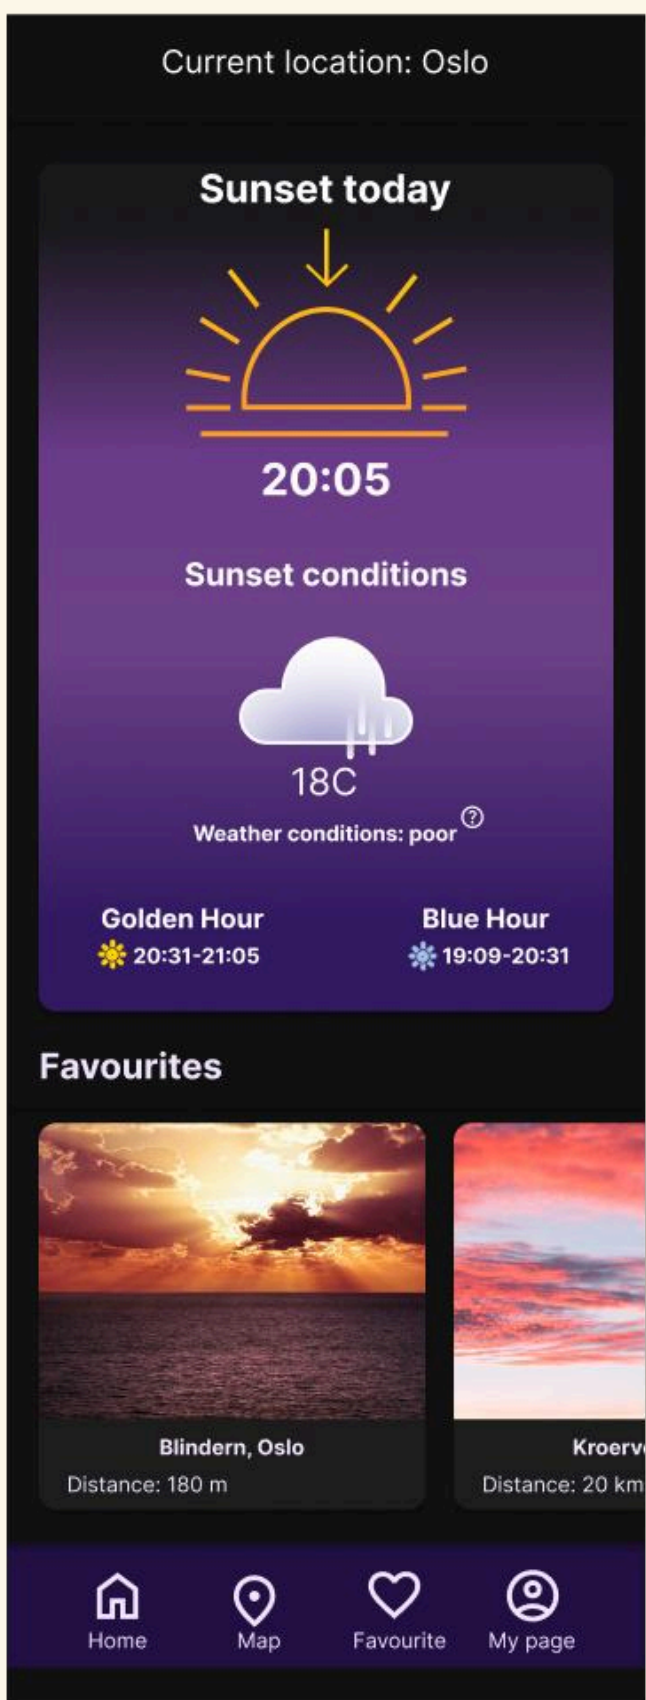

# HomeScreen

Geriljatesting

Brukertesting

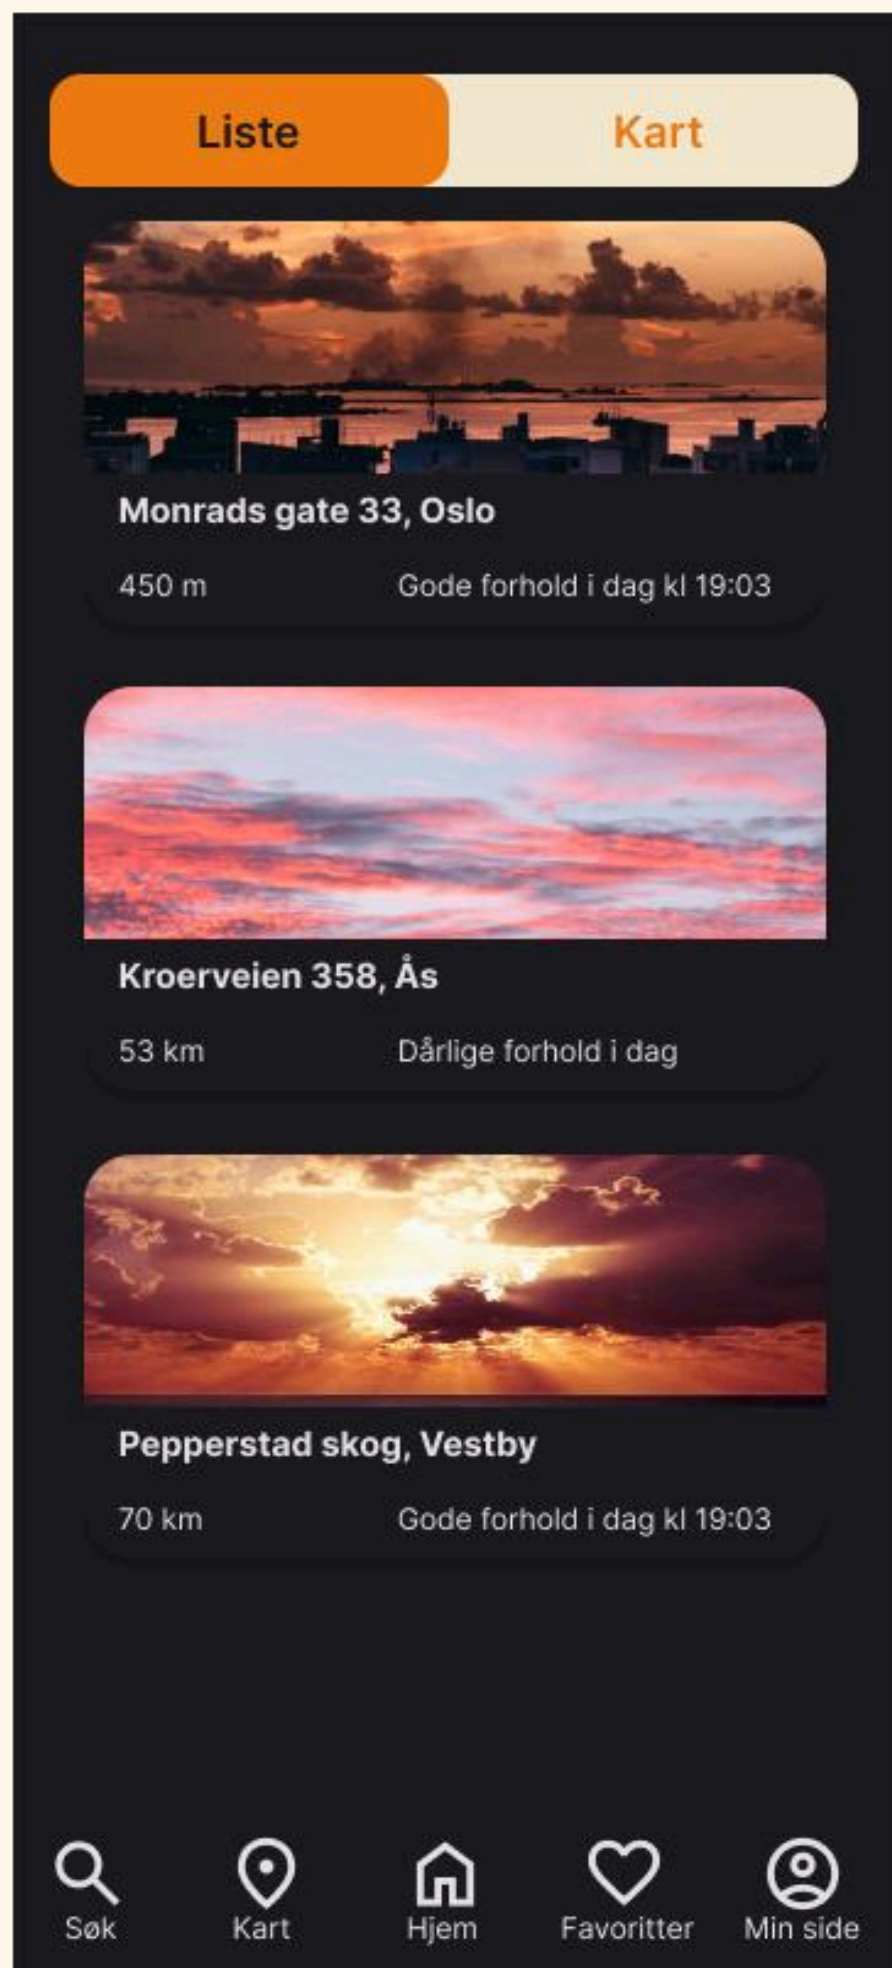

Designet i figma vi baserte oss på

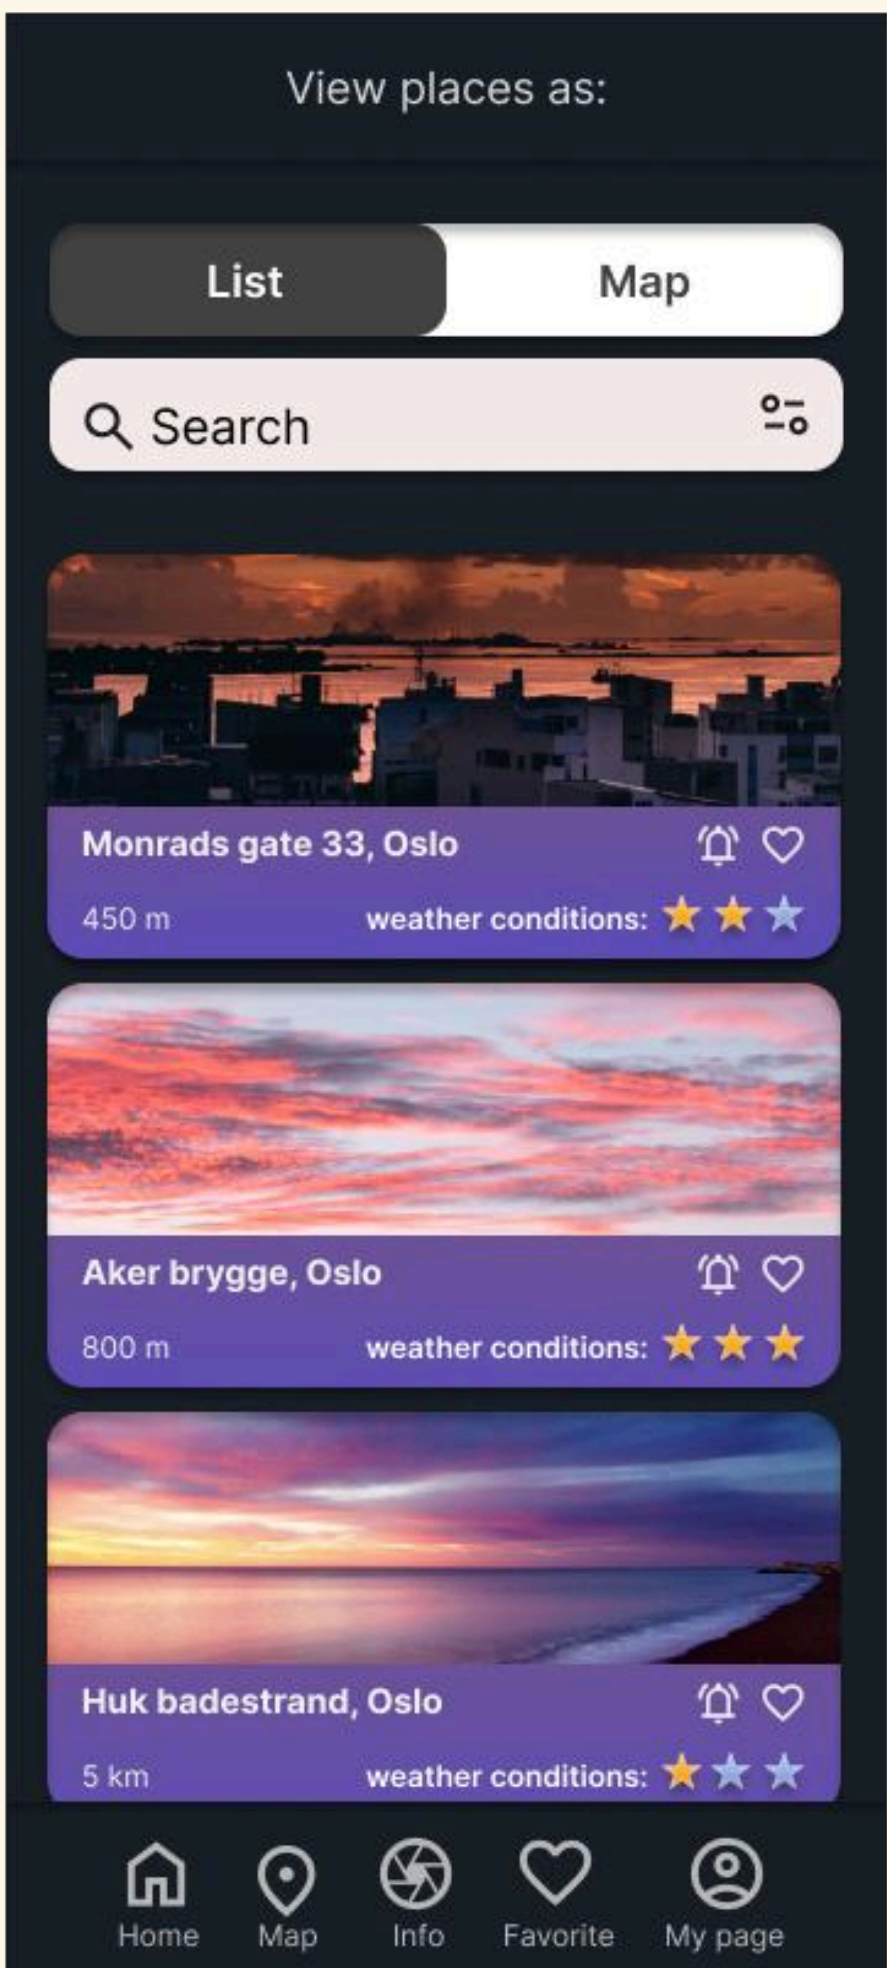

Ferdig design i appen (dark mode)

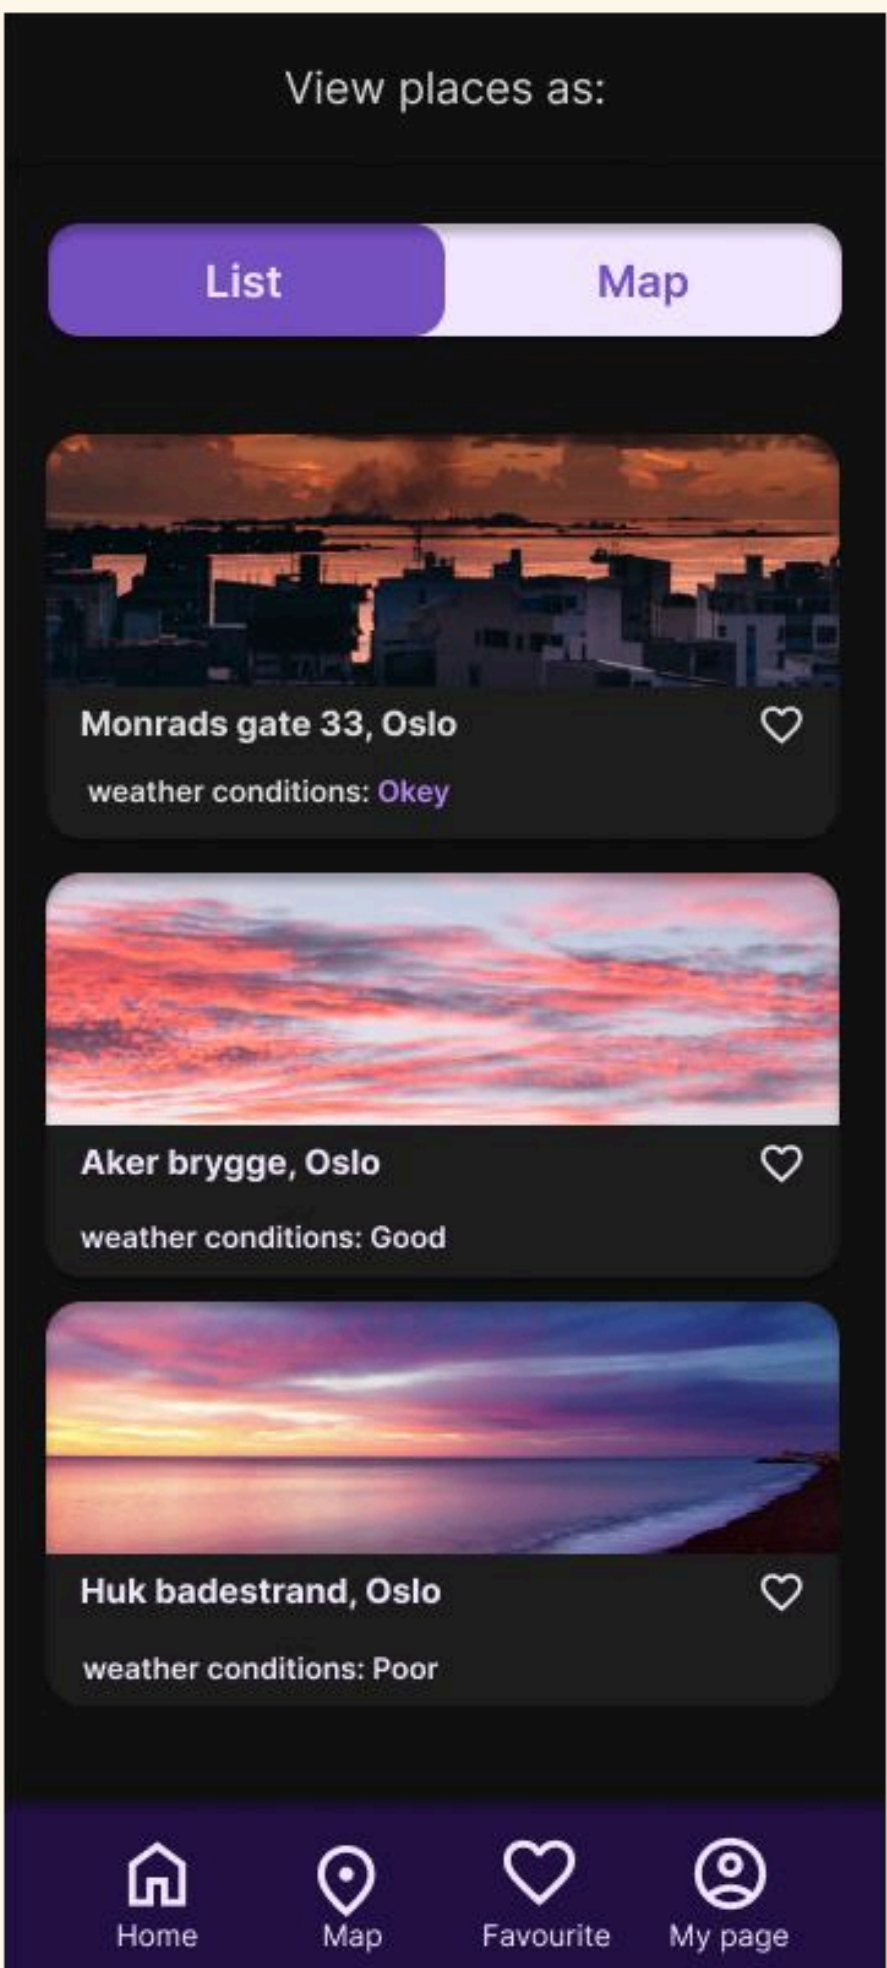

# MapListScreen

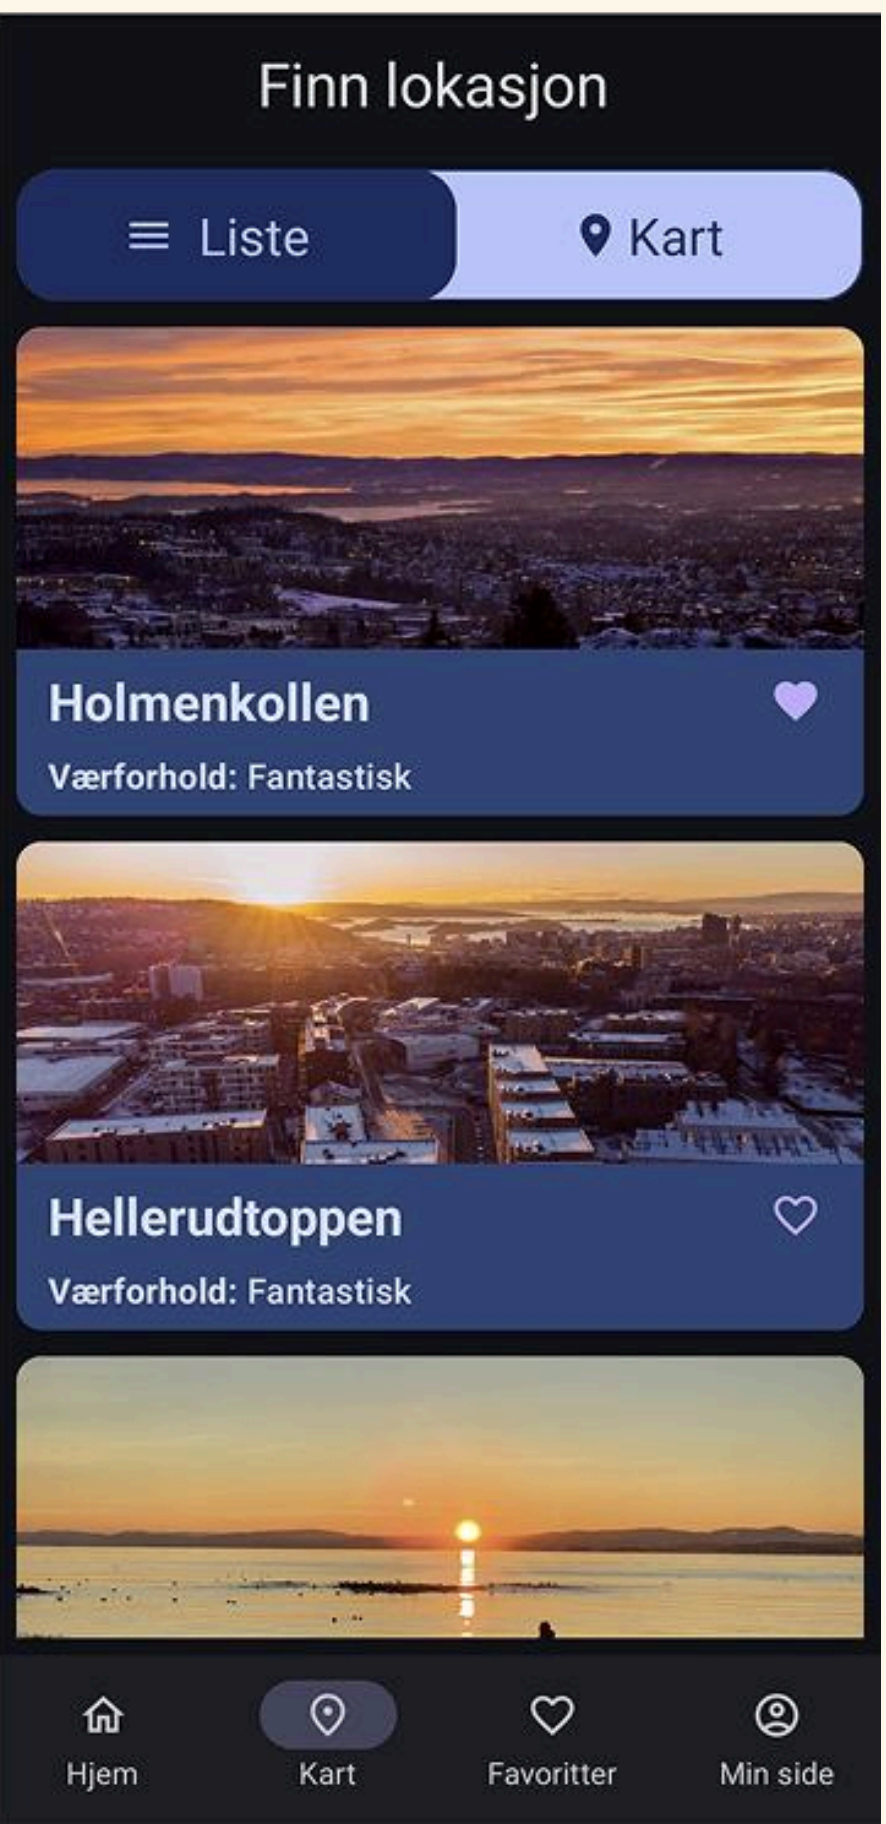

Geriljatesting

Brukertesting

Desginet i figma vi baserte oss på

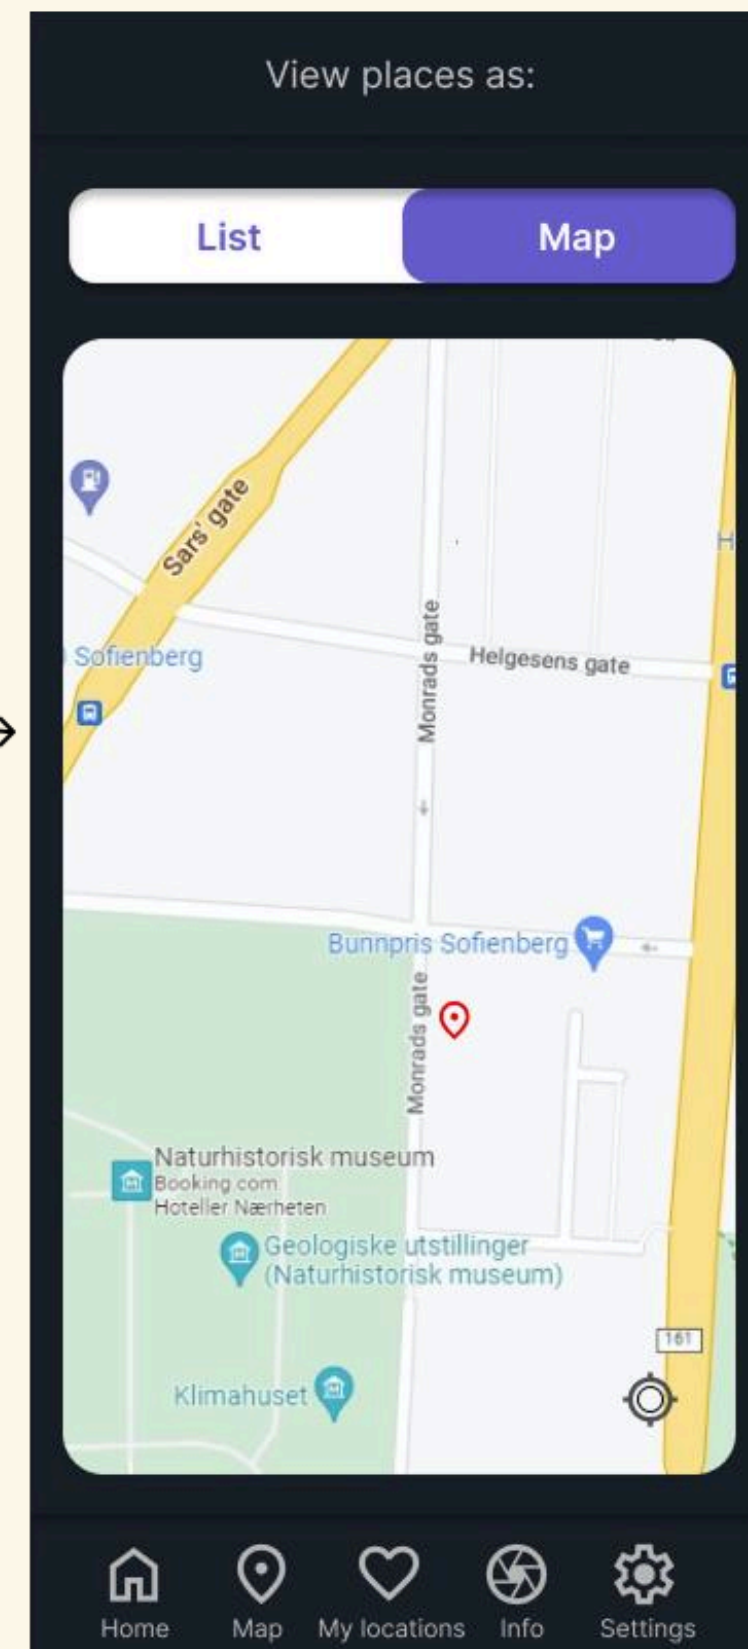

Ferdig design i appen (dark mode)

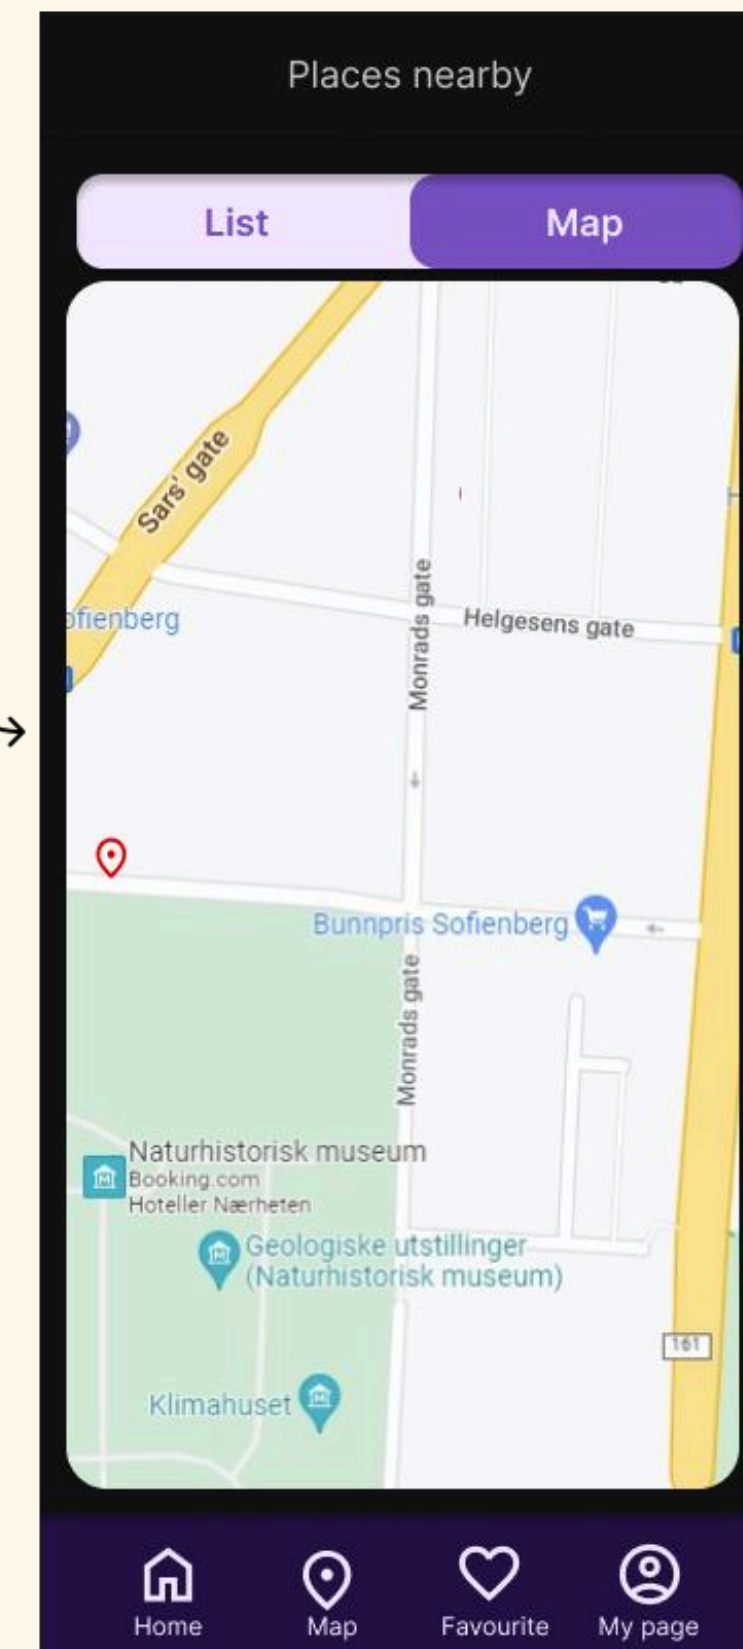

# MapListScreen

PlaceInfoScreen

Geriljatesting

Brukertesting

Designet i figma vi baserte oss på

Ferdig design i appen (dark mode)

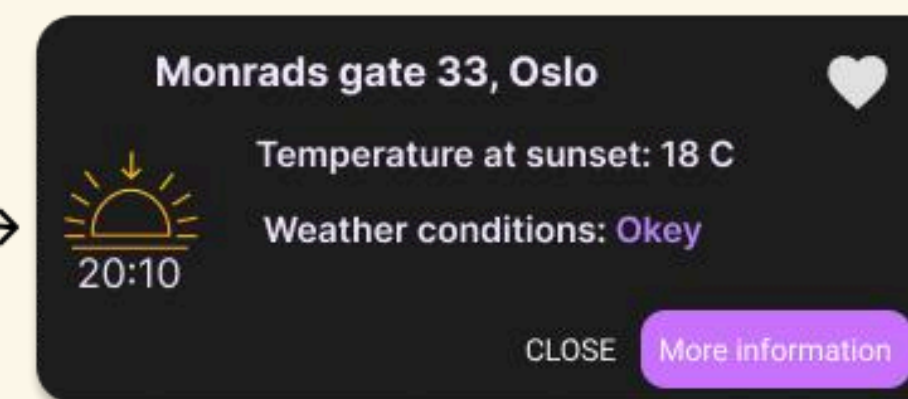

## BottomSheetContent

Geriljatesting

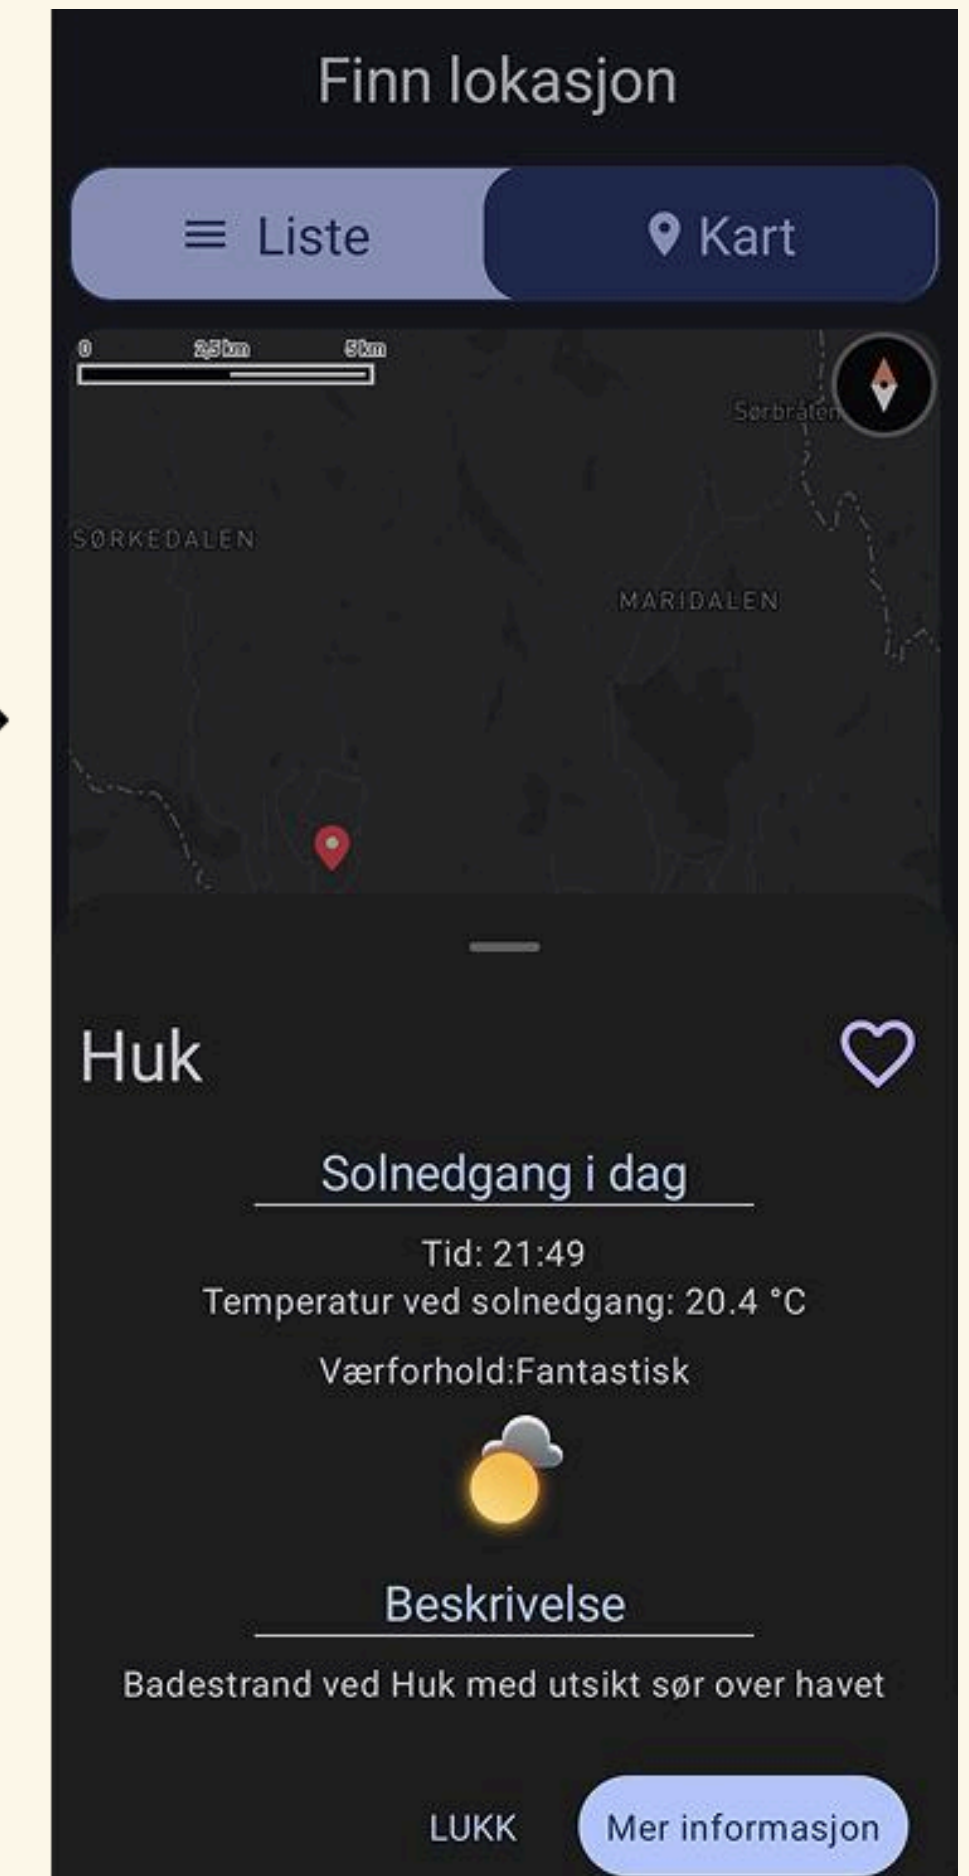

Brukertesting

Kodedesign

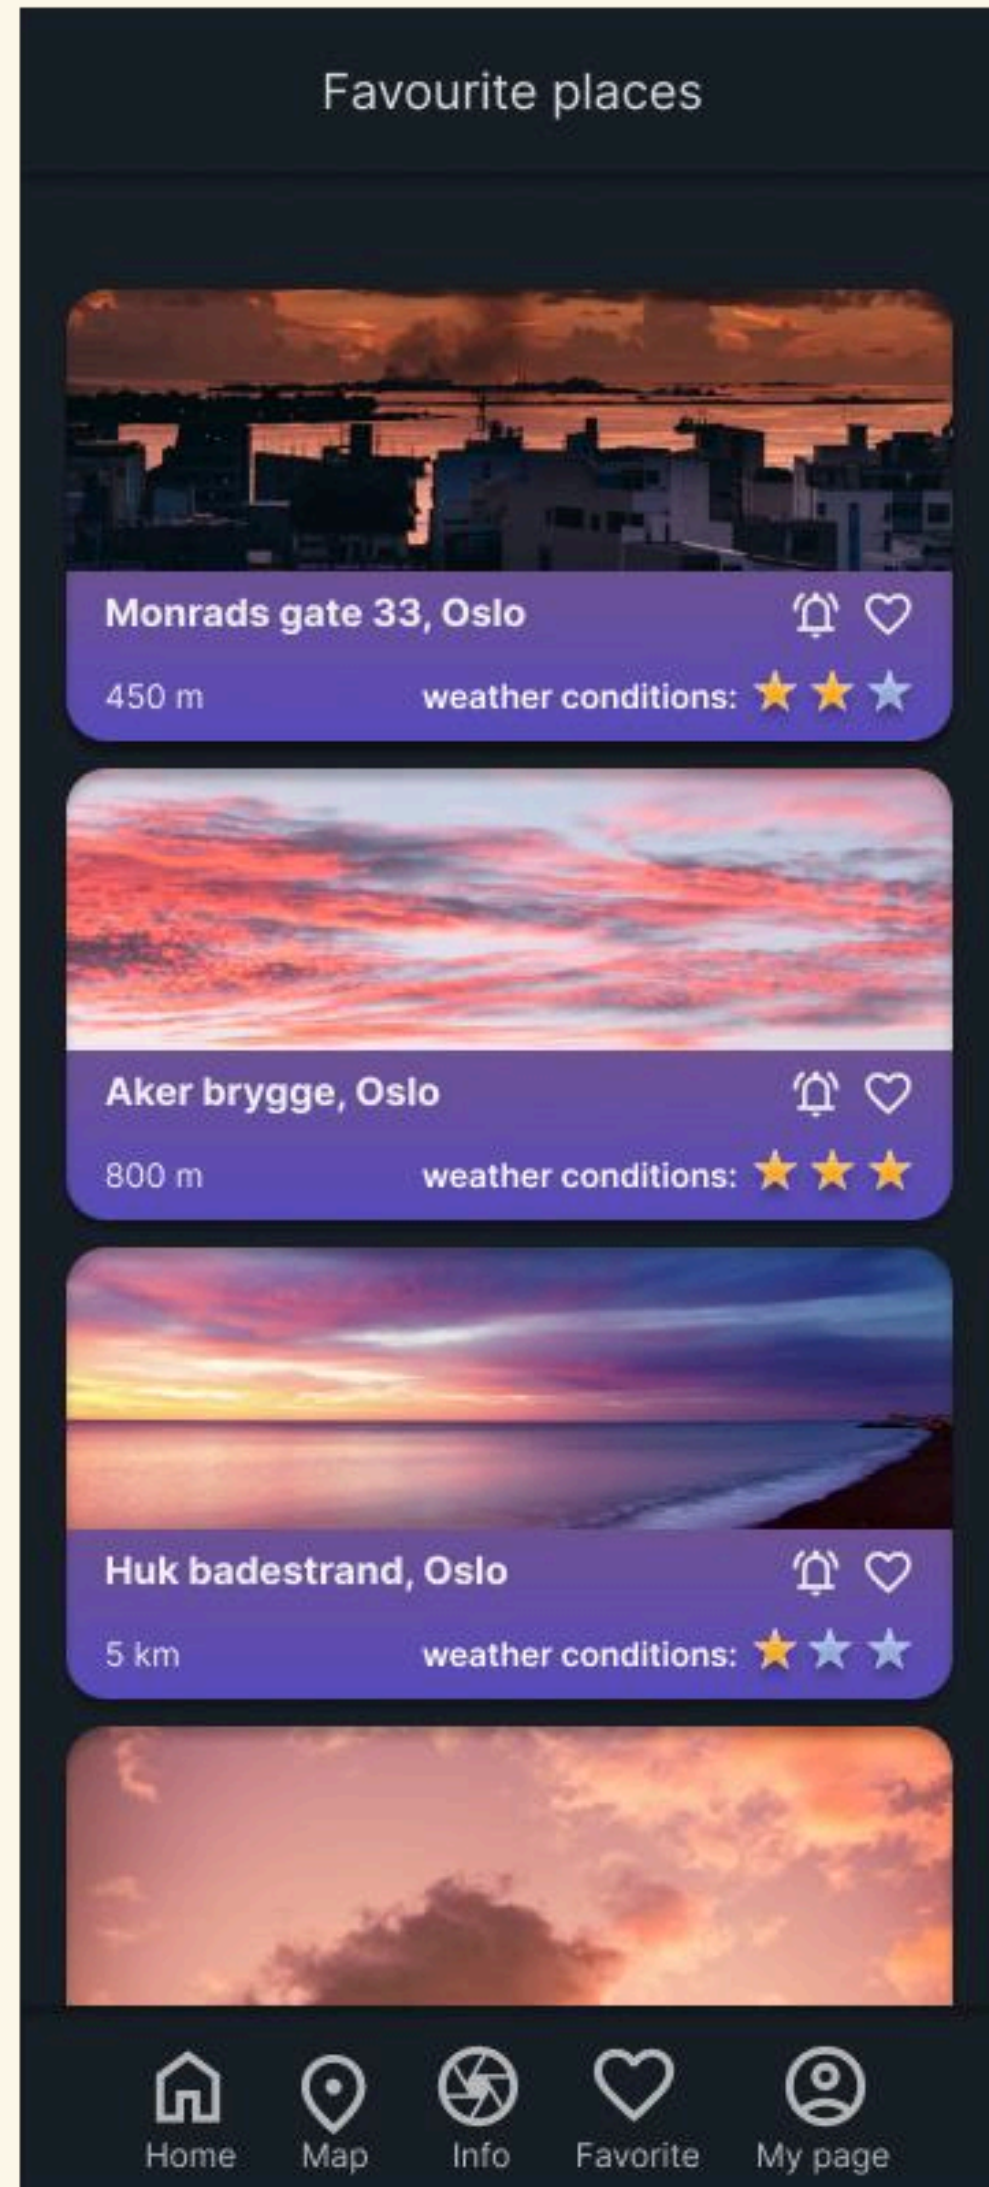

Disse ble endret i Android Studio, da  
Android har sin egen innebygde BottomSheet

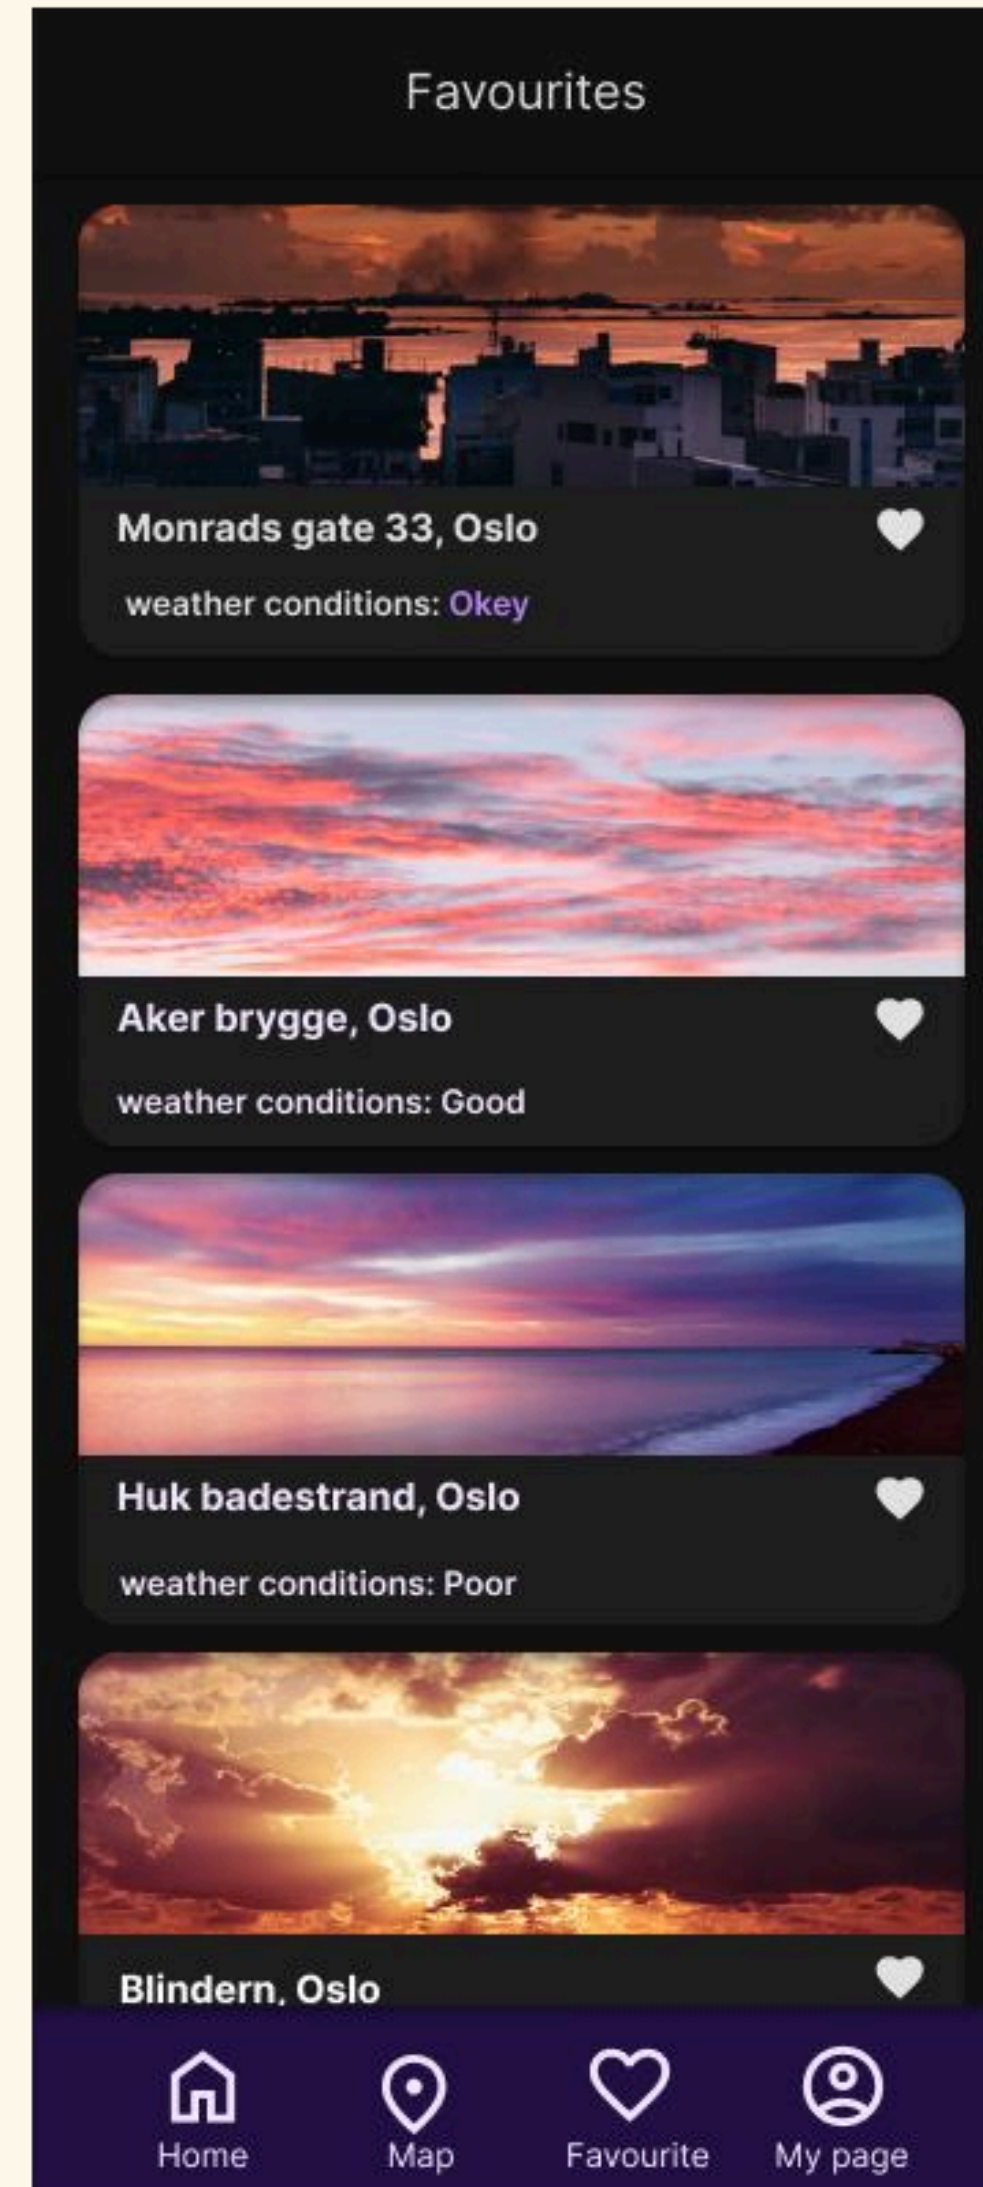

Endelige designet i appen  
(dark mode)

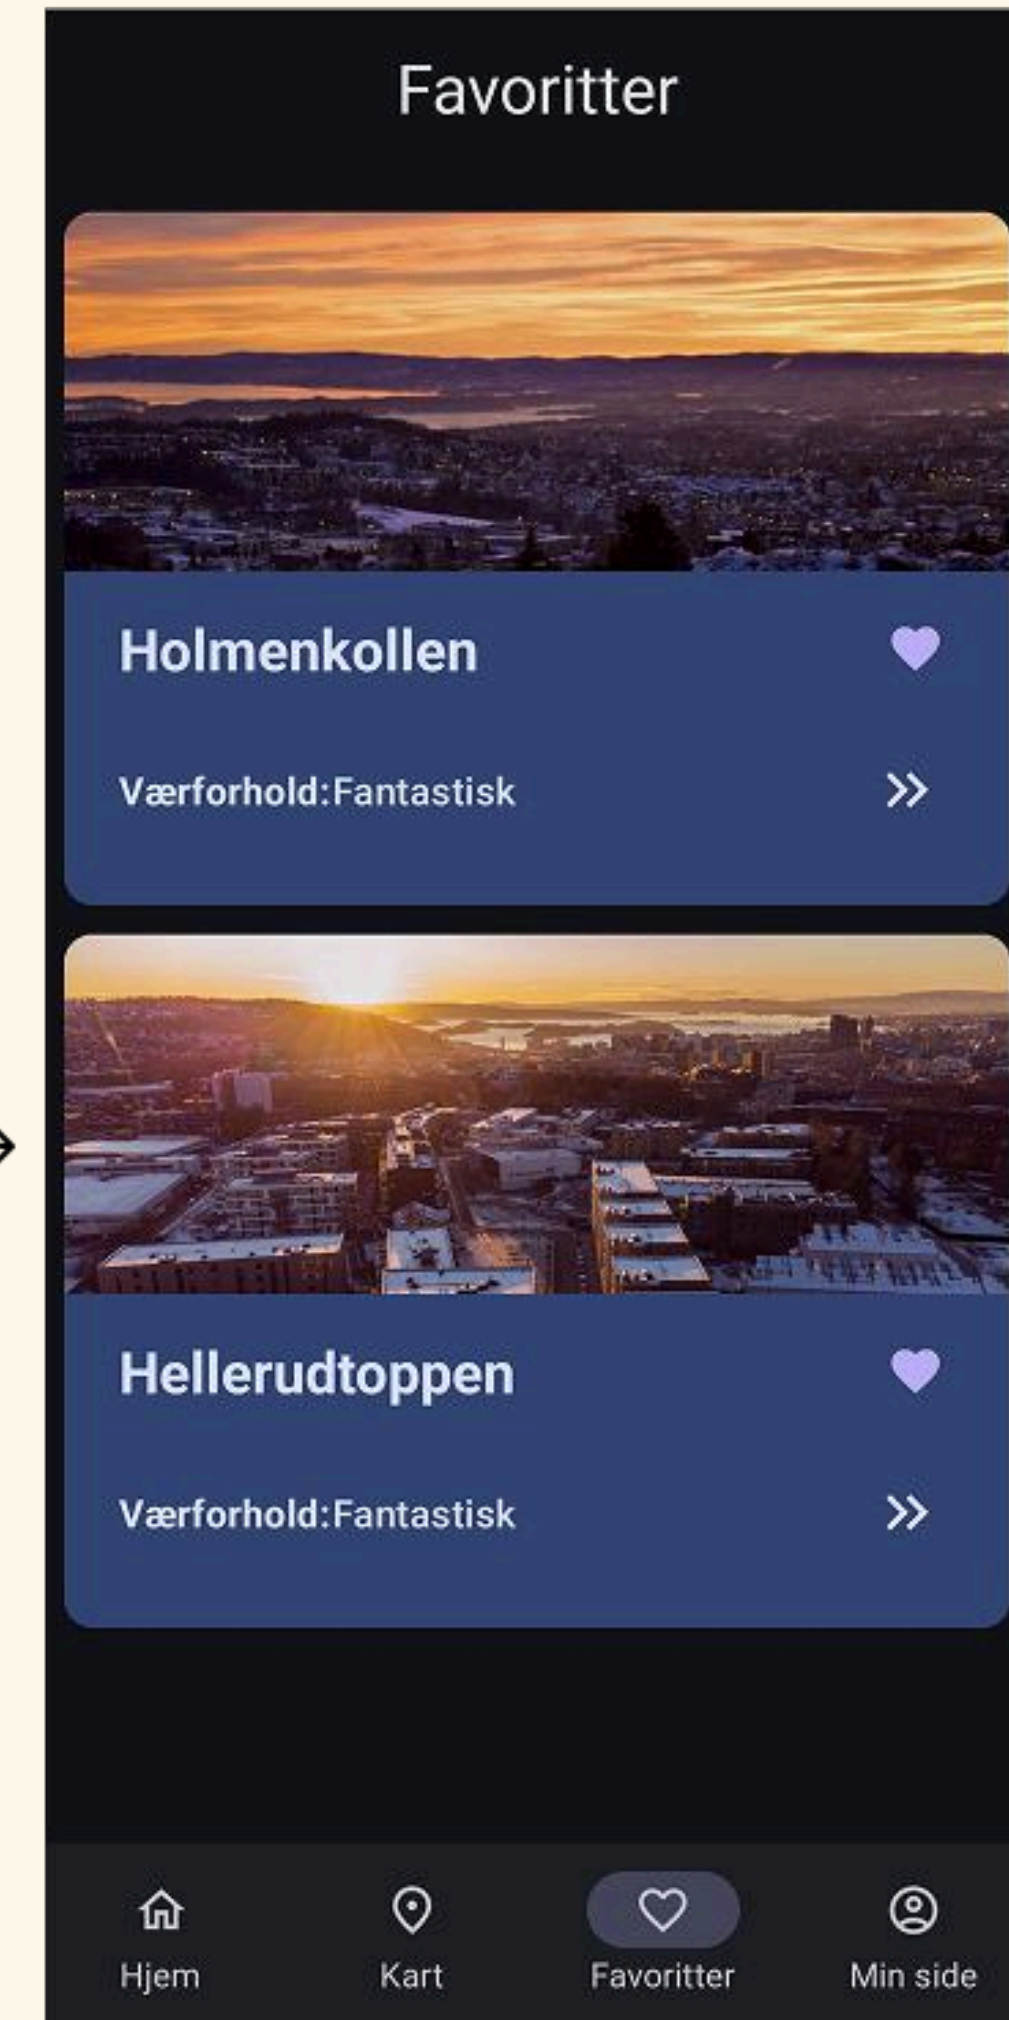

# FavouriteScreen

Brukertestning

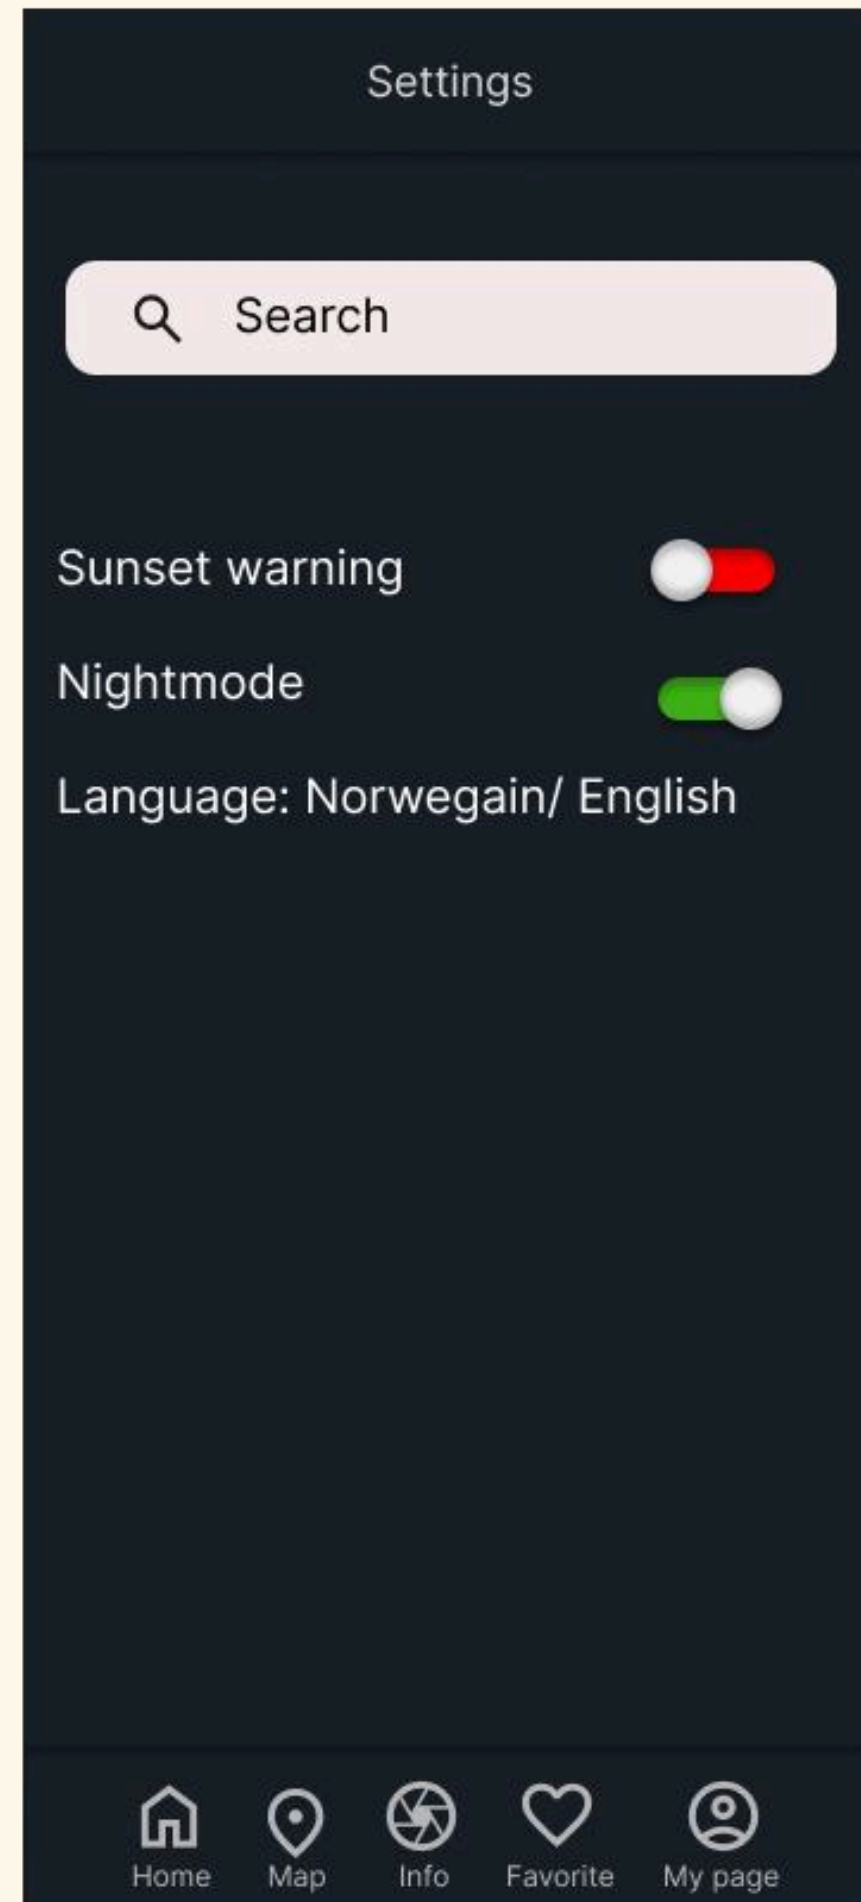

Kodedesign

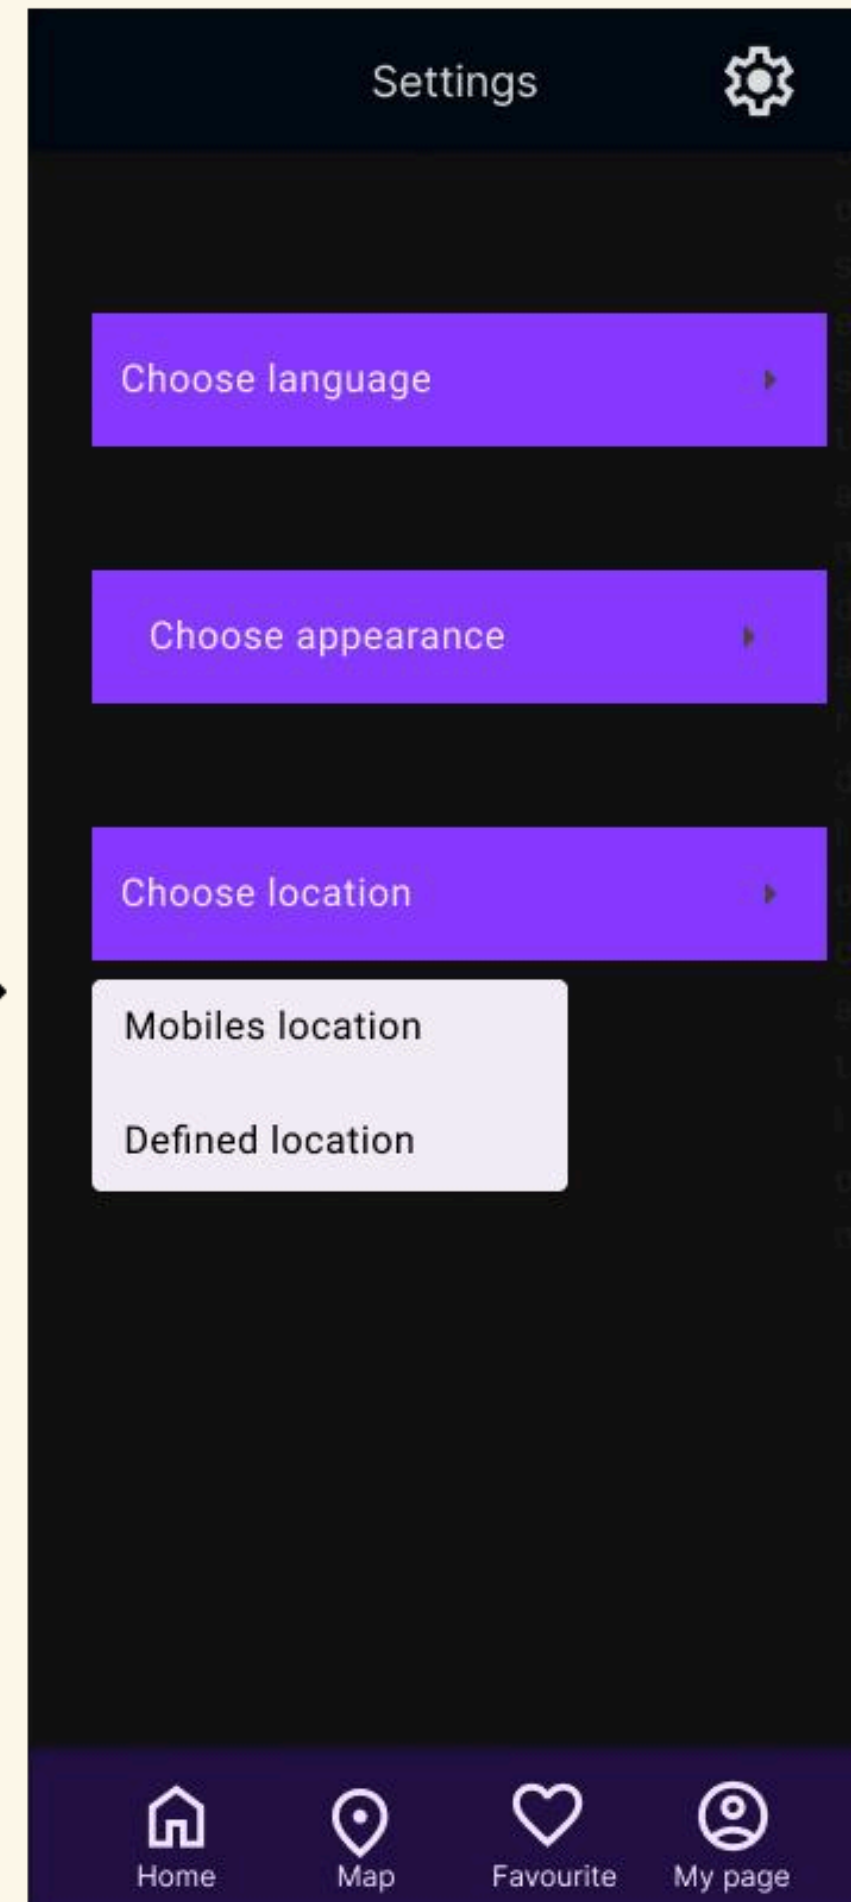

Ferdig design i appen

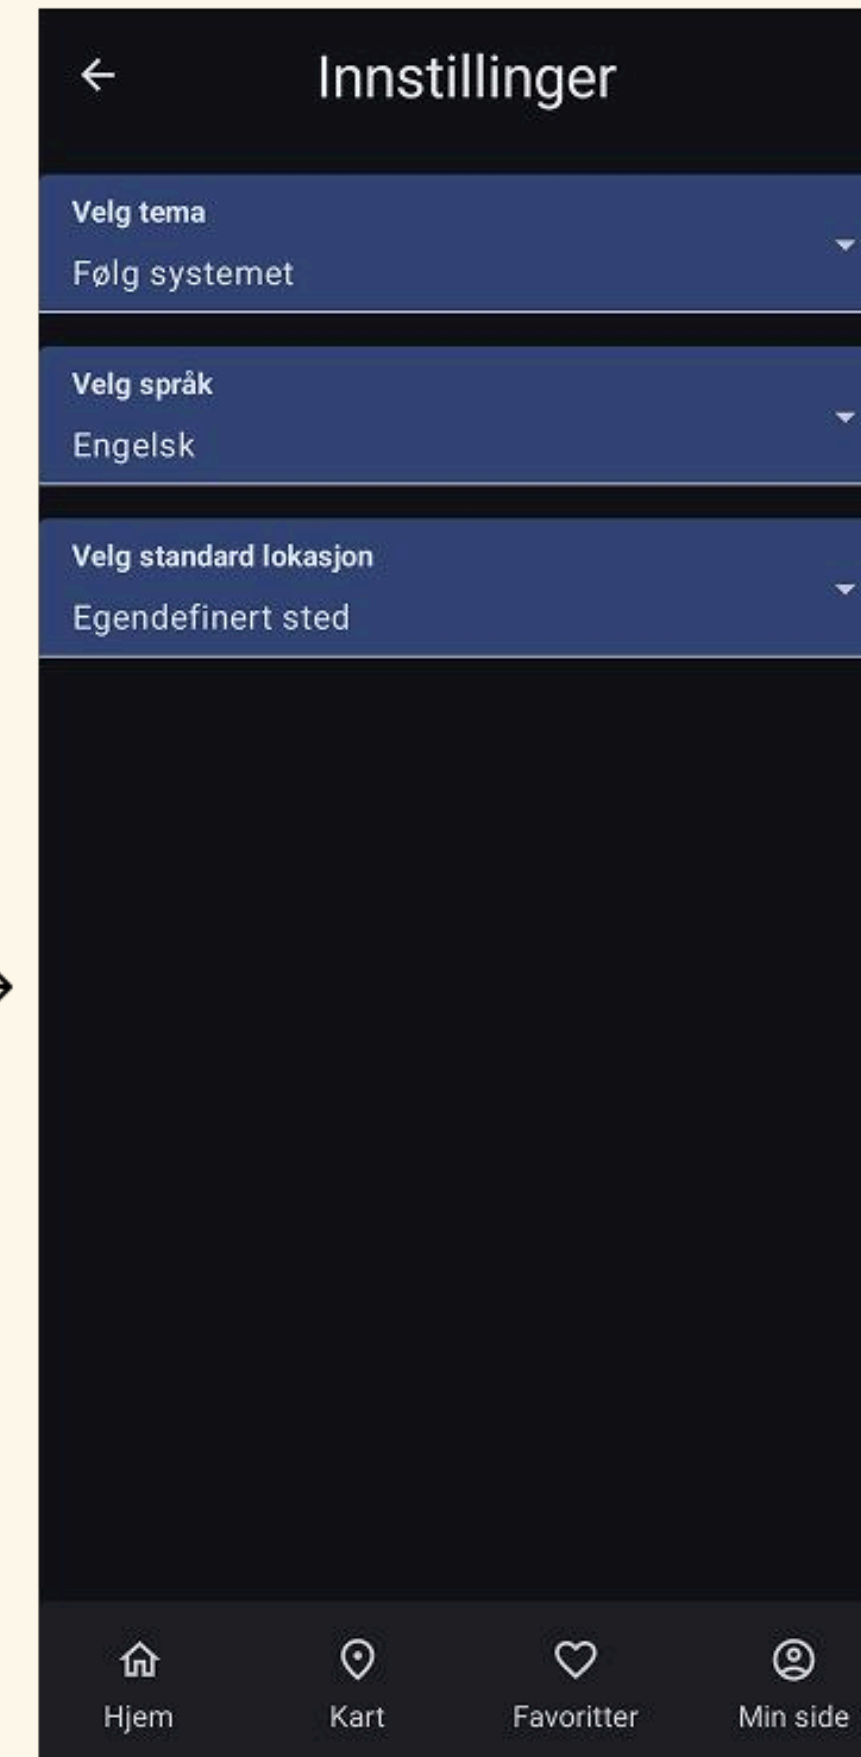

# SettingsScreen

Brukertesting

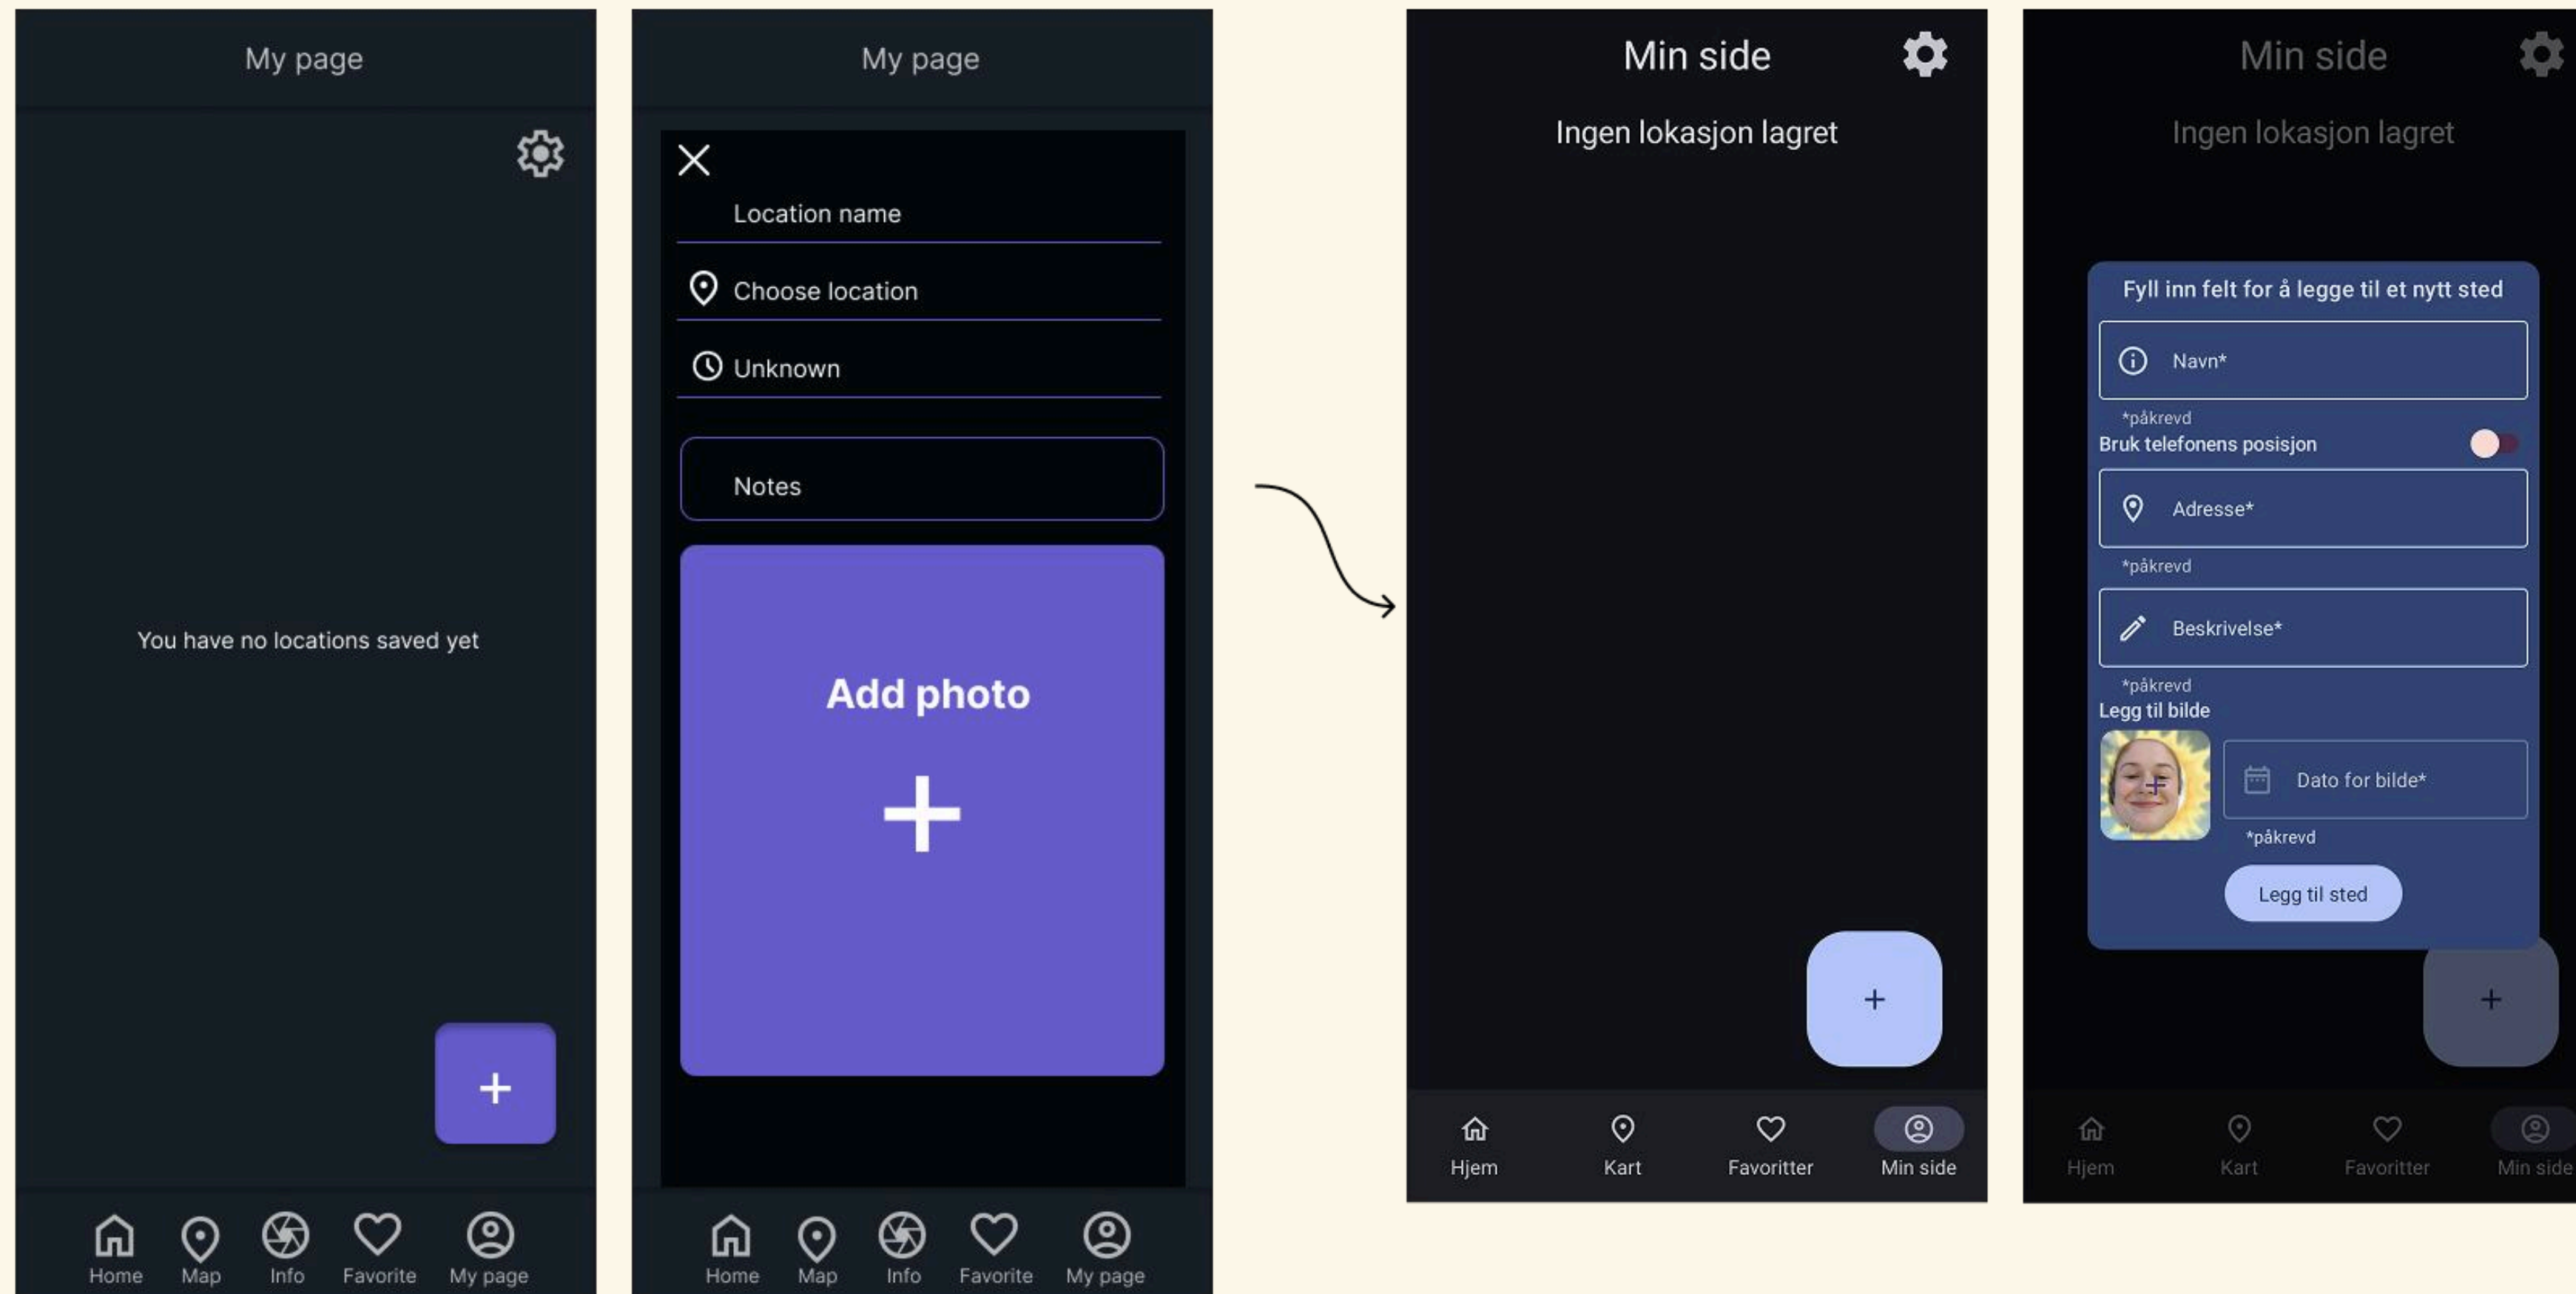

Kodedesign

Ferdig design i appen  
(dark mode)

# MyPageScreen

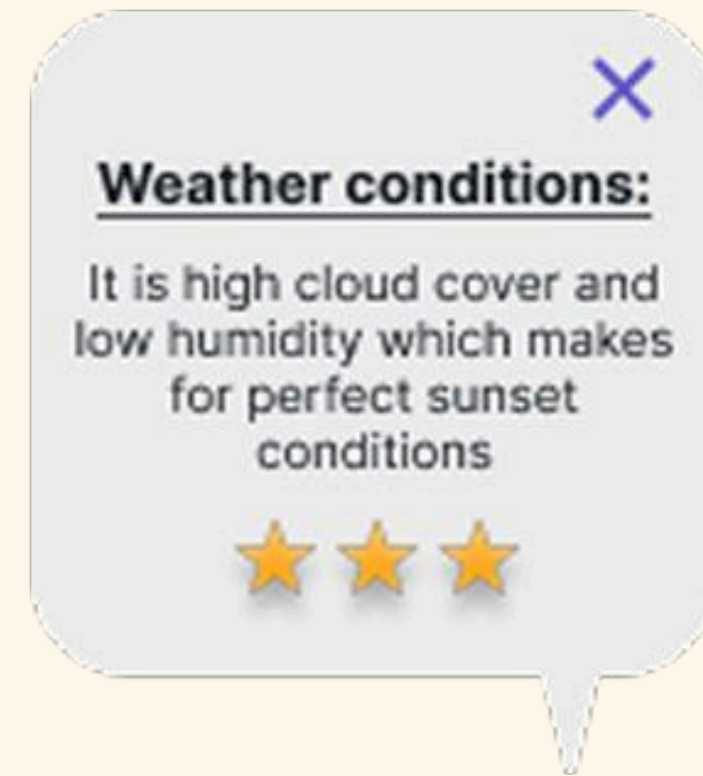

Brukertesting og kodedesign

Ferdig design i appen (dark mode)

# WeatherConditionsPopUp

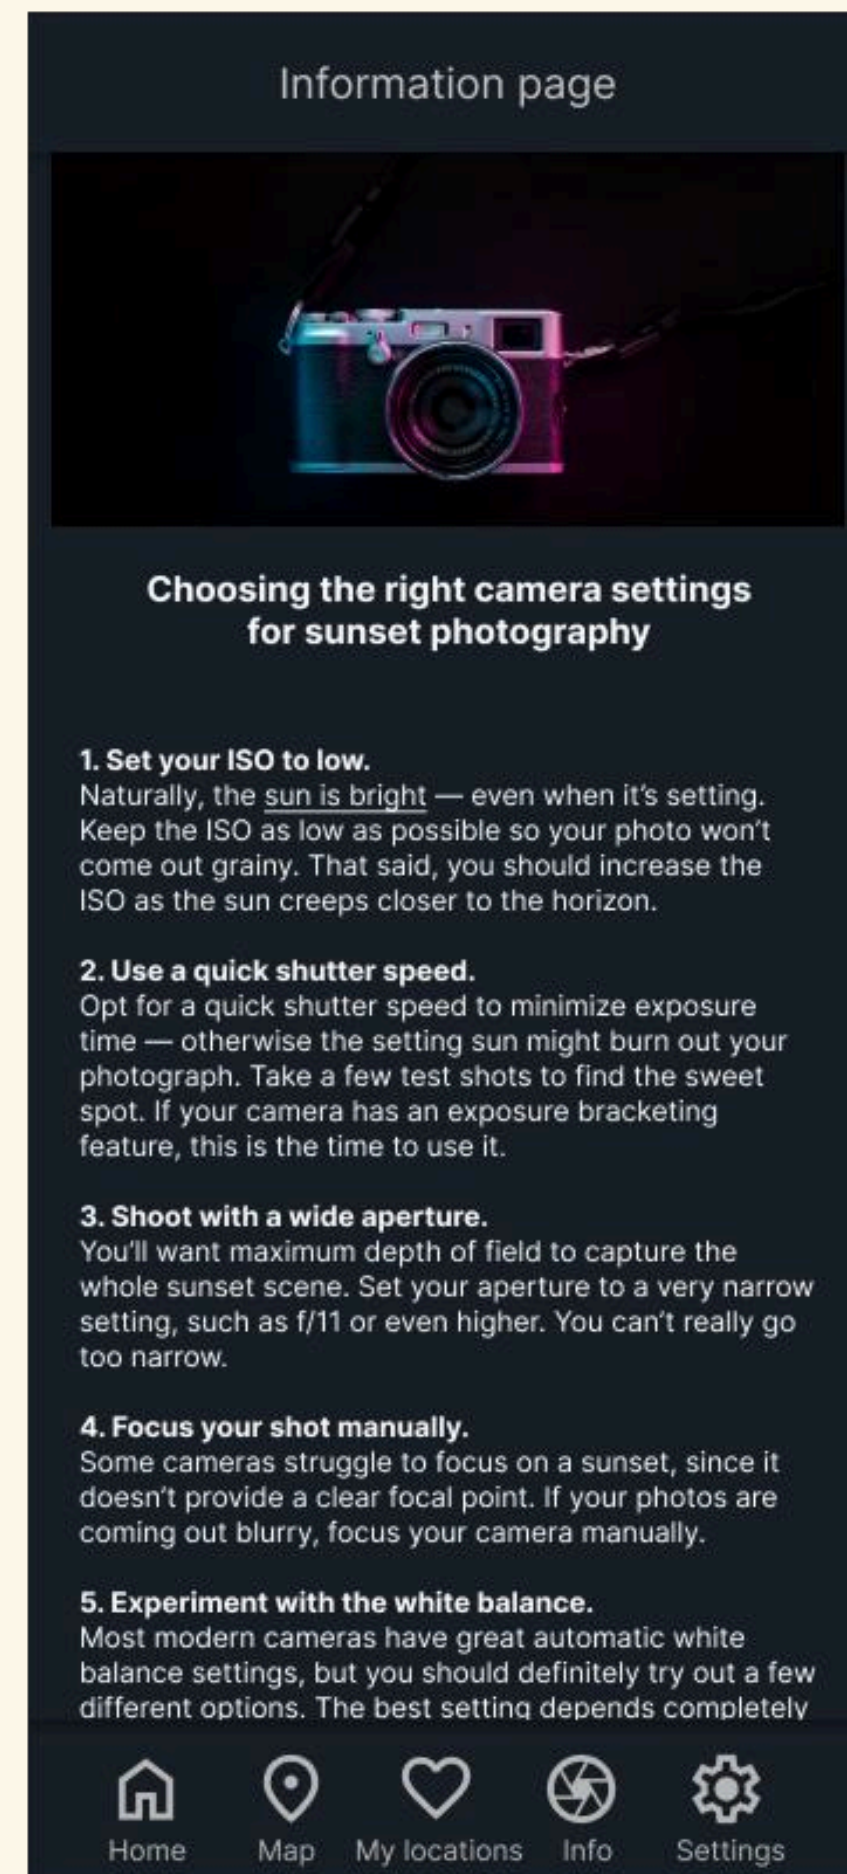

Ble endret i Android Studio til å bli en Dialog

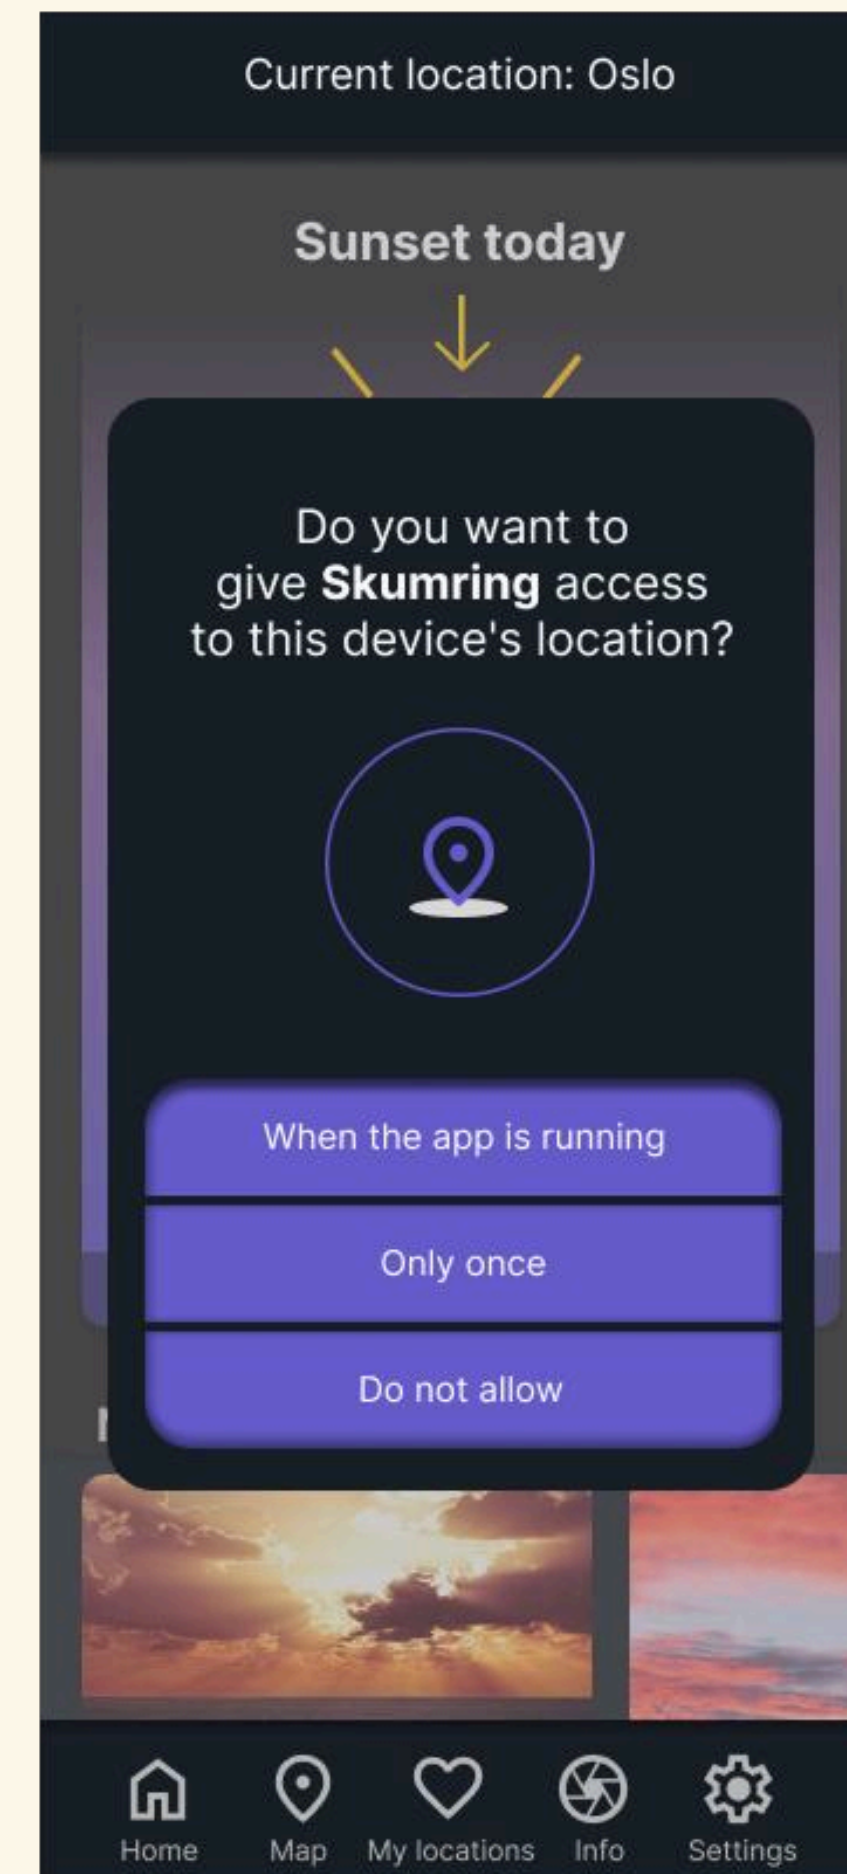

Ferdig design i appen (dark mode)

# Skjermer som ble valgt vekk

Informasjonsskjerm,  
ingen interesse blant  
brukerne

Android har sin  
egen aksesserings popup
